

Journal Submission Information for ICHEd 2009

For the submission process we will accept articles in the MS Word and LaTeX formats, PDF files are not acceptable. Please send them by mid-August directly to rwlee@berkeley.edu, cauble@llnl.gov or emyra@umich.edu. These articles will be reviewed to ensure quality. Upon acceptance of an article, Authors will be asked to transfer copyright (for more information on copyright see <http://elsevier.com/authors>). The electronic text should be prepared in a way very similar to that of conventional manuscripts (see also <http://www.elsevier.com/locate/hedp>)

LaTeX documents: The article should preferably be written using Elsevier's document class "elsarticle.cls". The Elsevier LaTeX package (including detailed instructions for LaTeX preparation) can be obtained from <http://elsevier.com/locate/latex>.

Overview: Please write your text in English. Italics are not to be used for expressions of Latin origin, for example, *in vivo*, *et al.*, *per se*. Use decimal points (not commas); use a space for thousands (10 000 and above). Use double line spacing and wide margins on numbered, single column pages.

Title page(s) should contain the article title, author(s) names and affiliations, the text of related footnotes and the text of the abstract. The author to whom the proofs should be sent must be indicated with her/his full postal address, telephone number, e-mail address and/or fax number. One to four classification codes (PACS 2003 at <http://www.aip.org/pacs/>) and up to six keywords of the author's choice should be given below the abstract.

Tables should be typed on separate sheets at the end of the manuscript. In addition to its serial number, each table should have a sufficiently detailed caption to explain the data displayed in it.

Figures should be numbered and their captions listed together at the end of the manuscript in EPS or TIFF format. A detailed guide on electronic artwork is available on our website: <http://elsevier.com/artworkinstructions>

Formulae in the manuscript should be clearly typed with particular consideration given to characters that maybe misinterpreted.

References in the text to other publications should be numbered consecutively within square brackets and listed together at the end of the text. The format is: 1) after the first three names use *et al.* 2) Use the abbreviation for the Journal, 3) use **bold** type for the volume, 4) page number, and 5) the year in parentheses. For example, R. Cauble, E. Myra, RW Lee *et al.*, *Phys Rev B* **33**, 1234 (2008).
